Dear Duncan MacArthur,  
**Approval of EDSL TAS v9.5.6 (SBEM v6.1.e.0)**

Thank you for going through the approval process for your DSM software EDSL TAS v9.5.6, SBEM v6.1.e.0 for the purposes of:

- demonstrating energy and carbon compliance in support of the Building (Scotland) Regulations 2004
- producing energy performance certificates in support of the Building (Scotland) Regulations and the Energy Performance of Buildings (Scotland) Regulations 2008
- Producing Action Plans in support of The Assessment of Energy Performance of Non-Domestic Buildings (Scotland) Regulations 2016

We note that the product in question has been taken through the approval process as set out in our guidance document 'Scotland NCM Software Validation DSM and FI-SBEM Validation Guidance Document'.

We are happy to confirm that the product is now approved for use in Scotland and I will update the information held against your product on our website at:

[Building standards approved energy assessment software: guidance - gov.scot \(www.gov.scot\)](https://www.gov.scot/building-standards-approved-energy-assessment-software-guidance) .

Yours sincerely

Daniel Foulds  
Technical & Policy lead – Section 6 (Energy)
